

Night Vision Weapon Sight AC-4275/4375

The AC-4275/4375 is a device which utilizes state-of-the-art materials to reduce weight and improve recoil resistance. It has 4x magnification, a waterproof housing, Mil-Dot illuminated "cross-hair" reticle, high-grade multi-coated optics, and a low profile heavy-duty weaver mounting system. The

sight could be assembled with a wide variety of Gen 2+ or 3 image intensifier tube to satisfy any level of performance. With guaranteed zero retention on heavy caliber weapons (including .50 BMG class), these are the systems of choice among military and law enforcement professionals, as well as hunters in many countries.

Features: Lightweight; built-in IR illuminator; automatic brightness control; long eye relief; waterproof

Standard accessories: Soft carrying case; batteries; tissue

Optional accessories: Hard waterproof carrying/storage case; OTIS lens swabs, lens cleaning kit, optics cleaning system
