

EOTech 512 HWS

Holographic Weapon Sight by EOTech (Models 512.A65 and 512.XBOW)

Reticle 512.A65

Range Finder/Reticle 512.XBOW

The Model 512 A.65 is the most popular holographic weapon sight. This revolutionary technology is renowned for its precision and ability to function in harsh conditions. It is ideal for users that want the best in speed and versatility, without the need for night vision compatibility. The model has a 65 MOA circle and 1 MOA dot reticle.

Model 512. XBOW was designed with the crossbow hunter in mind. The XBOW utilizes the unique properties of holography to create optimal range scaling data in a heads-up display. Simply position the base of the scale on the target and read the yardage line that crosses the back. This integral ranging pattern eliminates unnecessary body movement or added noise while in the stand since the ranging and aiming information are both displayed in the same sight picture.

If you have a night vision device for home protection, look at the 552. Same great sight and features plus night vision-compatibility.

Optional accessories: Lens cleaning kit and OTIS lens swabs.

Specifications

FEATURE	SPECIFICATION
Night Vision Compatibility	None
Magnification	1x
Dimensions (L x W x H)	143 x 51 x 64 mm
Weight	
512. A65	325 g
512.XBOW	312 g
Field of View	28 m @ 10 cm relief
Eye relief	Unlimited
Adjustment (per click)	Approx 0.5 MOA (12.7mm at 91m) when zeroing
Reticle Option	
512. A65	0- 68 min ring and 1 MOA aiming dot
512.XBOW	XBOW reticle with range assist
Battery type	Two 1.5 V AA batteries
Battery Life	
Lithium	1000 hours at nominal setting 12 and room temp
Alkaline	600 hours at nominal setting 12 and room temp
Water Resistant	Submersible to 3 m depth
Sealing	Internally fog-resistant optics
