

- Night Vision Compatible
- Magnifier Compatible
- Adjustable, locking quick-detach lever fits both 1" Weaver and MIL-STD-1913 rail
- Operates on 2 common AA Alkaline or Lithium batteries
- Easy adjust side buttons
- Submersible to 10 m depth

The EOTech 552 HWS is the most affordable night vision compatible weapon sight. It is designed to increase the speed to target even after the sun goes down. The major advantage is extremely rapid reticle-on-target acquisition. Operators can quickly acquire the target and reticle in the same focal plane for fast and accurate shot placement. The sight can be used as a bright open reticle image or a fine dot which is limited only by the acuity of the shooter's eye. The heads-up display window allows an undistorted and unrestricted view of the target. Utilizing natural binocular vision is an advantage of this sighting system, as well as additional threat identification through increased operator situational awareness and peripheral vision. The 552 can operate in tandem with Gen 2+ and/or Gen 3 night vision intensifier tubes. While in the NV mode, the sight is undetectable by night vision equipment. The HWS® can be positioned behind night vision systems without any "bloom" on the target area.

Specifications:

Night Vision Compatibility	YES
Magnification	1x
Dimensions (L x W x H)	143 x 51 x 64 mm
Weight	325 g
Field of View	28 m @ 10 cm relief
Eye relief	Unlimited
Adjustment (per click)	Approx 0.5 MOA (12.7mm at 91m)
Reticle Option (552. A65)	68 min ring and 1 MOA aiming dot
Battery type	Two 1.5 V AA batteries
Battery Life	
Lithium	1000 hours at room temp
Alkaline	600 hours at room temp
Water Resistant	Submersible to 10 m depth
Sealing	Internally fog-resistant optics
