

EOTech 558 HWS

Holographic Weapon Sight by EOTech Models 558.A65

-0- RETICLE

The 558 is compatible with Gen-I-III night vision devices and features an adjustable, locking quick detach mount that offers instant removal. The operational buttons are located on the side of the sight making this optic ideal for use with EOTech switch-to-side magnifiers. The major advantage is extremely rapid reticle-on-target acquisition. Operators can quickly acquire the target and reticle in the same focal plane for fast and accurate shot placement. The sight can be used as a bright open reticle image or a fine dot which is limited only by the acuity of the shooter's eye. The heads-up display window allows an undistorted and unrestricted view of the target.

While in the NV mode, the sight is undetectable by night vision equipment. The HWS® can be positioned behind night vision systems without any "bloom" on the target area.

Optional accessories: Lens cleaning kit and OTIS lens swabs.

Specifications

FEATURE	SPECIFICATION
Night Vision Compatibility	YES
Magnification	1x
Dimensions (L x W x H)	142.3 x 55.9 x 73.7 mm
Weight	391.2 g
Optical Surfaces	Anti-reflective coating on external surfaces
Window Dimensions	30 x 23 mm
Field of View	28 m @ 10 cm relief
Eye relief	Unlimited
Brightness	20 daylight settings (add. 10 settings for NV use)
Adjustment (per click)	Approx 0.5 MOA (12.7mm at 91m) when zeroing
Adjustment Range	+/-40 MOA travel
Reticle Option	0- 68 min ring and 1 MOA aiming dot
Battery type	Two 1.5 V AA batteries
Battery Life	
Lithium	1000 hours at nominal setting 12 and room temp
Alkaline	600 hours at nominal setting 12 and room temp
Mount	1" Weaver or MIL-STD-1913 rail
Water Resistant	Submersible to 10 m depth
Sealing	Internally fog-resistant optics
