

- Compact, rugged design
- Waterproof
- Head, helmet, or weapon mountable
- Manual gain control
- Ergonomic, simple, easy to operate controls
- Wide 51° field of view option available
- Built-in Infrared illuminator
- Bright light cut-off
- Automatic shut-off system
- MIL-STD-810

The ALPHA OPTICS PVS-14 multipurpose night vision monocular is an outstanding choice for professional night vision applications. Its design is lightweight and tough with superb optics. The device is a complete unit, including an image intensifier tube, a protective and waterproof housing, compatible with different types of mounting systems. A built-in IR illuminator makes it possible to use the unit in low light or total darkness. LED lights indicate low battery and show the user that the IR illuminator is on. Optional 3x, 4x, or 5x lenses could be easily attached by the operator in the field.

Equipped with manual gain control the device enables an operator to manually

adjust image brightness to adapt to current ambient light conditions. This feature becomes particularly useful in areas with frequently changing ambient lighting, for example in urban environment. The ability to control output image brightness helps reduce or eliminate the "night blindness effect". When co-aligned with a red-dot type sight on a Picatinny rail the device becomes an integral part of a formidable night vision weapons sighting system.

The most versatile night vision system on the market, it can be handheld, or head/helmet-mounted for hands-free use, or attached to a camera or camcorder for nighttime photography.

**PVS-14****Multipurpose Night Vision Monocular****SPECIFICATIONS**

Image Intensifier Tube	Gen 2+ or 3
Magnification	1x standard; 3x, 4x, 5x – optional
Field of View	40°
Lens System	26 mm; F/1.2
Focus Range	0.25 m to infinity
Eye Relief	25 mm
Manual Gain Control	YES
Diopter Adjustment Range	-6 to +4 dpt
Built-in Infrared Illuminator	YES

USER INTERFACE

Control Direct	- Diopter control
	- Focus control
	- ON/OFF button
	- IR ON/OF button
LED Indicators (in FOV)	- IR Indicator - red
	- Excessive level of light - green
	- Low Battery Indicator - flashing red
Bright Light Cut-Off	YES
Automatic Shut-off System	YES

POWER

Battery Type	One 1.5 V AA
Battery Life	up to 50 hours at 20°

ENVIRONMENTAL

Operating temperature	-51°C to +55°C
Storage temperature	-51°C to +85°C
Waterproof	IP67
Impact-Resistant	YES; drop-test 1m

PHYSICAL

Dimensions	110 x 61 x 65 mm
Weight w/o battery	315 g

STANDARD ACCESSORIES

Demist Shield, Sacrificial Window, Neck Cord, AA Battery, Lens Cleaning Tissue, Shoulder Strap, Soft Carrying Case, Hard Waterproof Case

OPTIONAL ACCESSORIES

Head-mount Assemblies, Helmet Mount Assembly, Standard (Bayonet or Dovetail) J-Arm, Objective Lenses (3x, 4x, 5x), 51° FOV lenses; Weapon Mount, Camera Adaptor, Dual Bridge Mount, Direct Recording Optical System ALPHACAM, Lens Cleaning Kit
