

- One-Piece Eyepiece
- Extreme Durability
- Low-profile tactical turrets
- Short to medium range
- Water, fog, shock resistant
- XC™ HD Fully Multi-Coated lenses
- Push-Button Illumination Controls

The Vudu X Series 2-12X Rifle Scope features aircraft-grade aluminum construction, daylight bright illuminated reticle, and precision turrets that provide deadly accuracy. The magnification power ring includes easy to see laser engraved numbering and a removable throw lever for quick transitions through the magnification range. Capped turrets provide a clean look while protecting them from inadvertent adjustments. Clear, crisp glass and generous eye relief makes this all-purpose optic ideal for any close to medium range targets.

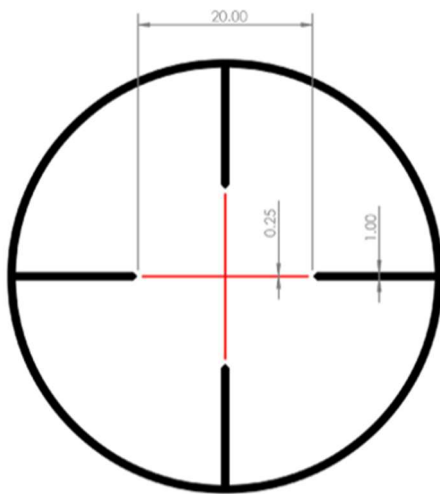

**Standard accessories:** Throw lever; Flip-Up Protective Lens Caps; Battery, Lens Cleaning Cloth

**Optional accessories:** Hard storage case; Lens cleaning kit; Anti-fog lens swabs; TENEBRAEX Scope Cover; TENEBRAEX Polarizer; TENEBRAEX ARD

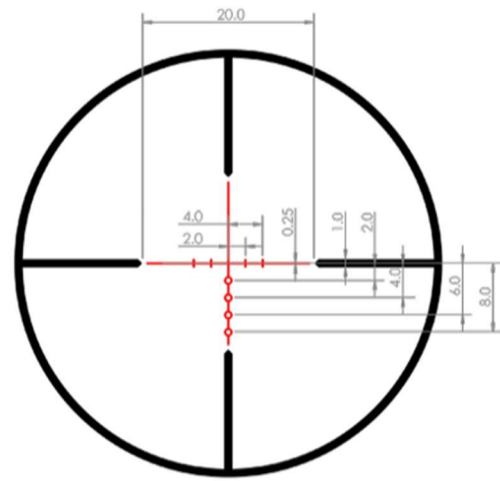

### Specifications:

OBJECTIVE LENS	40 mm	
TUBE DIAMETER	30 mm	
EYE RELIEF	2x: 94.4-94.7 mm	12x: 94.4-94.7 mm
FIELD OF VIEW @ 1 YARD (91M)	2x: 17 m	12x: 2.8 m
BATTERY TYPE	CR 2032	
OVERALL LENGTH	320 mm	
WEIGHT	597 g	

Reticle Specifications	BD1	DP1
Adjustment Graduation per Click	0.25 MOA	0.25 MOA
Adjustment Graduation per Rotation	15 MOA	15 MOA
Total Elevation Travel	80 MOA	80 MOA
Total Windage Travel	80 MOA	80 MOA

DP1

BD1

## DP1 (MOA) Reticle

The duplex style pattern (DP1) offers four thick crosshairs that gradually reduce to a thinner crosshair at the center. This allows for quick target framing and precision shots.

## BD1 (MOA) Reticle

The Ballistic Drop reticle (BD1) provides the same advantages as the DP1 but provides (4) ballistic holdover circles making it an ultra-versatile mid-range reticle. The circles provide a 2, 4, 6, and 8 MOA holdover.
