

Pulsar 3x20B Monocular Adapter for Krypton 2

- Transforms Pulsar Krypton2 thermal clip-on devices into thermal monocular
- Connects via simple bayonet coupling
- Provides 3x magnification

Pulsar 3x20 B Monocular transforms your Pulsar Krypton2 thermal clip-on device into a handheld thermal imager. It connects to the thermal clip-on with a simple bayonet coupling and can be attached quickly and reliably without the need for tools. The dedicated mechanical part allows the user to adjust the position of the screen for an optimal field of view. Once installed, the 3x20 B Monocular provides 3x magnification for detecting heat signatures at extended ranges. Additionally, the included neck strap helps prevent any accidental falls.

SPECIFICATIONS	
Compatibilities	Krypton 2 Clip-On
Magnification	3x
Lens diameter	20 mm
Field-of-view	15°
Eye Relief	20 mm
Eyepiece Focusing Range, Diopter	±5
Dimensions, mm	95x45x51
Weight, kg	0.1
